

Transposing

Transposing means playing the same music using a different scale. The starting note will change but the **intervals** remain the same.

- Play these examples:

C 5-Finger Scale

G 5-Finger Scale

Is Mr. Haydn Transposing?

1. • Name each **interval** marked for the manuscript on the left—2nd, 3rd, 4th, 5th.
• Then circle the correct transposition on the right.

Surprise Symphony Theme

London Trio in G

Concerto in C
