

Remember, to **improvise** means to create “on the spot.”

Improvise young hunter music by doing the following:

1. First, listen to your teacher play the accompaniment. Say “legato” or “staccato” as you hear the music change.
2. When you are ready, use these 5 white keys IN ANY ORDER. When the teacher part is **legato**, can you play *legato* to match? When the teacher part is **staccato**, can you play *staccato* to match?
